Energy Rebates for Builders

Over
\$42 MIL
in HERO
Code Rebates
Processed

Up to \$9,000 per Home

Duke Energy, Piedmont Gas, and Dominion Energy are offering cash incentives to builders for building energy efficient homes.

- + **Up to \$9,000 per home** – Duke Energy Residential New Construction Program
- + **\$500 per home** – Piedmont Gas Rebate
- + **\$500 per home** – Dominion Energy Rebate

Program Update

If you've explored these rebates in the past and decided not to pursue them because of requirements, there's GOOD NEWS.

Duke Energy recently launched a program update specifically for Climate Zone 3 that requires less upgrades to qualify! Introducing the Above Code Entry (ACE) program, that **no longer requires slab insulation.**

To date, Southern Energy Management has enrolled 27,000+ homes into these programs and brought over \$42 million back to our builder partners!

Reach out to your HERS rater to learn more on how to qualify.

ELECTRIC

Duke Energy Whole Home HERO Incentive

\$500 – \$9,000 per home

Baseline Requirements

- + Individually metered in Duke Energy Carolinas or Duke Energy Progress territory
- + Meet energy usage and testing requirements set forth by the HERO or Above Code Entry (ACE) Program

GAS

Piedmont Natural Gas and Dominion Energy Whole Home Incentives

\$500 per home

Baseline Requirements

- + Individually metered in Piedmont Natural Gas or Dominion Energy territory
- + Natural Gas Furnace of 90% or higher AFUE
- + Meet energy usage and testing requirements set forth by the NCECC HERO Option

How to Participate

1 Contact Your HERS Rater

Southern Energy Management offers a free rebate analysis to tell you if your homes are qualifying, and how much you can expect.

2 Get Verified

Homes must receive a HERS Index Score to participate. Your HERS rater will inspect each home at the insulation stage and at final. Once HERO compliance is confirmed at final, your HERS rater will submit documentation for incentives processing.

3 Get Paid

You'll receive an incentive check 4-6 weeks after the home is submitted to the program!
