

Peace of Mind Starts Here.

Discover the keys to a healthy, comfortable, and efficient home.

A certified ecoSelect® home is designed and built to be healthy, comfortable, and efficient through a combination of green building strategies, water conservation features, and performance testing.

In addition, a certified ecoSelect® home is inspected and energy rated by certified third-party organizations, giving you clear expectations of what your utility bill will be before ever stepping foot in your new home.

For more information, visit ecoSelect® online at www.getecoSelect.com.

QUALITY ASSURED

Homes are inspected and tested by a third party to ensure program compliance.

HIGH-PERFORMANCE BUILDING ENVELOPE

Advanced framing and air sealing details allows the insulation to better keep in heat during the winter and out during the summer.

SOLAR EVALUATION

Every ecoSelect® home is evaluated for solar energy production potential, so you can have the information you need to take your next steps towards energy independence.

HIGH-PERFORMANCE HVAC

Heating and cooling systems are tested after installation to ensure quiet and efficient operation, enhancing the home's comfort.

FRESH AIR VENTILATION

Removing stale air and introducing new air through a controlled system means you and your family can breathe easy all year long.

ENERGY EFFICIENT LIGHTING

Efficient lighting provides a 75%-80% energy saving and lasts 10-25 times longer than traditional incandescents.

WATER EFFICIENCY

High efficiency WaterSense® labeled fixtures save water without sacrificing performance.

The ecoSelect® program combines performance testing and targeted energy efficiency features into a comprehensive program package that addresses energy efficiency, water efficiency, and indoor air quality within your home.

ecoSelect® specifications and requirements are verified by a certified independent third-party energy rater, responsible for ensuring that the home you are buying has met all of the prescriptive requirements and features of the program.

For additional information and program details please visit:

www.getecoSelect.com

After completing the certification process, your home receives an ecoSelect® Performance Label and rating report, with information on energy costs, efficiency features, and the HERS rating.

- 1 Home address
 - 2 Final assessment date
 - 3 Conditioned square footage
 - 4 Energy efficiency features
 - 5 Individual ecoSelect® Rating ID number
 - 6 Average estimated monthly energy cost
 - 7 The HERS (Home Energy Rating System) Index.
 - 8 HERS Index Score
- For more information, visit: resnet.us/hers-index

Performance Label

ADDRESS: 1234 Oakleaf Ave., Raleigh, NC 27606
