

SOLAR FOR BUSINESSES & FARMS

USDA REAP Grant Solar Incentive

Save
70-90%
on the cost of
a solar power
system

What is the REAP Grant?

The USDA REAP program provides grant funding to farms and rural businesses for solar energy systems to help permanently reduce operating expenses. When combined with other incentives, eligible farms & businesses can save 70-90% on the cost of solar with a REAP Grant.

Who is eligible for REAP?

To be eligible for this incentive you must:

1. **Be in a rural area as defined by the USDA**
2. **Be classified as a small business by the U.S. Small Business Administration**

It takes 5 minutes for us to determine if you're eligible. Reach out today to see if you qualify!

Don't think you qualify? No sweat. There are other solar incentives like the 30% Tax Credit. We're happy to review what you're eligible for.

Savings

Significantly reduce your energy costs for the next 30+ years

Energy Independence

Reduce reliance on the utility, and protect your business from soaring rate hikes

No Ongoing Maintenance

Harvesting savings from the sun requires no annual or preventative maintenance

Sustainability

Achieve your sustainability goals and reduce your carbon footprint

How to Start Your Savings

1. Determine Eligibility

Let us know you're ready to get started, & we'll determine what you qualify for

2. Free Custom Solar Design

We'll quote a custom system for you using LIDAR & satellite imagery

3. Apply for REAP Grant

We work with a dedicated grant writer who will lead the application process

4. Solar Installation

Once the grant is awarded, we'll handle everything including paperwork & install to get your system up and running

5. Harvest the sun! Sit back, relax, & enjoy 30+ years of operational cost savings!

Grants are awarded through a quarterly application cycle. Preparing your application takes several weeks. Get started early to make sure there is time to meet the deadline.

Shining Since 2001

Based out of Raleigh, NC, Southern Energy Management is the Southeast's solar power & building performance expert. We've worked for over twenty years to improve the way homeowners, businesses, & communities create, consume, & conserve energy.
